

Invisible Relationship

*Our relationship is between them and I,
I don't nose into yours,
I don't judge yours.*

*I may not talk to them all that often,
But they always are ready for my attention and affection,
We don't need a special place, a special time to meet –
We are always there in each other's presence.*

*We may not read the traditional text,
But we listen to our favourite tunes together,
And these songs strengthens our bounds to each other.*
