

## *The Black Dream*

---

*Had a dream the other night,  
It scared me for days afterwards,  
The loss and emptiness  
Made me sick to the stomach*

*The black stained house  
The black clothing all around  
The black feelings  
The black sadness.*

*The unspoken words  
Of gratitude and love that never were said,  
The black sadness  
Is fucking with my head.*
